

# BREAKFAST TELEVISION

THURSDAY, AUGUST 10<sup>TH</sup>

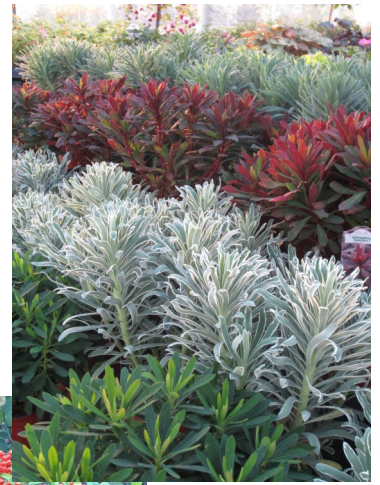

Urine (Uric Acid) dehydrates plant cells. Water dilutes both nitrogen and soluble salts.

## Plants that can tolerate pet pee:

- Phormiums
- Nandina (some, not all)
- Tall grasses – Feather Reed Grass
- Pyracanthas
- Barberry
- Photinia
- Ligustrum
- Daylilies
- Forsythia
- Osmanthus
- Eunonymus ‘Green Spire’
- Sword Fern
- Euphorbia
- Rosa Rugosa

## Lawns:

- Dutch White Clover
- Dog Rocks are very helpful too

*Pyracantha*

*Euphorbias*

*Daylilies*

*Sword Fern*

*Phormiums*

*Rosa Rugosa*

*Nandina*
