

Greenhouse Team Member – Experienced

Members of our Greenhouse Team are responsible for growing and cultivating thousands of the plants that we are proud to sell each year. The main focus of this team is to produce top quality plant products that will thrive in our customer's home gardens, and to work with fellow staff to ensure that team and customer needs are met. Greenhouse operations are dynamic, demanding and incredibly rewarding too!

In order to be considered for this position, you must:

- Have experience in watering, fertilizing and monitoring plant health, including temperature and light moderation
- Have knowledge of common (and less common!) pests and diseases that affect different plant species, as well as related prevention and solution steps
- Be able to perform repetitive physical tasks and activities such as moving carts, loading and unloading plant flats, lifting and moving merchandise, watering etc. Moving up to 30 pounds is a common occurrence; 50 pounds occasionally.
- Enjoy working in a variety of environmental conditions from greenhouse to outdoor work. There will be hot days, there will be cold days, there will be wet days, there will be dry days, there will be snow days... sometimes all in the same day!
- Be quick, efficient and have great attention to detail
- Have a great sense of humour and willingness to learn
- Note: Preference will be given to candidates with previous greenhouse plant maintenance experience (including propagating and transplanting a wide variety of different plant species), and certifications in greenhouse production.

Position Hours: During the main seasons, hours will be between 35-40 hours a week. During shoulder or quiet seasons, hours may be between 20-30 a week, but this is also weather dependent. Hours can be somewhat flexible to the candidate's availability, i.e. to coincide with school schedules, but weekend work (at least one day of the weekend) is required for all roles.

If you meet the requirements of this position and feel you would be an asset to our team, we would love to hear from you! Please complete an application form (available in store or print a copy from our website) and return it via one of the methods listed, to the attention of Erin.
