

## Greenhouse Production/Nursery Assistance

We are seeking a versatile, organized and energetic individual to join our team to assist with the production of plant crops in our greenhouses, receiving (plant and other garden store product) in-store product loading, customer service, forklift and skid steerer operation, light maintenance around the property (and more)! This is an indoor and outdoor physical role with duties that change daily, so if you're looking for a long-term, dynamic position working with an awesome team of 'plant people', read on!

Overall, we're looking for someone who:

- Is a self-starter and able to work well both independently and as part of the team
- Is able to organize his/her work and prioritize tasks effectively so that team members and customers are well looked after and product is maintained to the highest quality
- Enjoys working in a fast-paced, interactive environment
- Has a proven track record of providing superior customer service (and genuinely enjoys helping customers and isn't afraid to show it)!
- Is careful and mindful of handling fragile, perishable materials
- Is neat, tidy, safety conscious and looks out for the well-being of others
- Is capable of lifting 30-50lbs on a regular and sometimes repetitive basis
- Has experience with light carpentry, pressure washing etc.
- Has experience in operating a forklift and skid steerer (minimum one year)
- Has a great sense of humour and willingness to learn
- Is willing to jump in and assist in any area of the organization, from bringing in sales carts to watering plants (and more)!
- Note: Knowledge of horticulture and horticulture products and related practical experience in plant and garden care, as well as cash handling experience, are definite assets. Please note that we are strictly a non-smoking worksite.

Position Hours: Hours can be between 20-40 per week and weekend work is mandatory (one day of the weekend). Hours can be based on the candidate's availability, i.e. shorter hours to coincide with university school schedules, or they can be closer to full-time for those looking for consistent, long term roles, but one day of the weekend is required (or both if that's what you are seeking!). Spring Seasonal roles normally finish by mid-July. For year-round roles, please note that hours will shorten slightly outside of our busy seasons, and adjustments will also be made due to weather.

If you meet the requirements of this position and feel you would be an asset to our team, we would love to hear from you! Please complete an application form (available in store or print a copy from our website) and return it via one of the methods listed, to the attention of Erin.
